Items for the Daily Log - 23 June 1953

Legislative Counsel

25X1A

2. I have delivered to the Office of DDI the hearings before the Senate and House Foreign Relations Committees on the Mutual Security Act for analysis as to statements by public officials which run counter to accepted intelligence estimates.

3. I have sent to the Personnel Office the final text of the Annual and Sick Leave Act of 1953 for their use in preparing the necessary regulations. This Act, when signed by the President, will make special leave provisions for agency heads and will also repeal the so-called "Thomas Rider" which made it mandatory to take leave by the close of the calendar year in which it accrued. Employees will be allowed to accrue up to thirty days leave before losing any.
